

# Destrapping

## Eliminate the risk of injury & loss

Destrapping coils, sheets and tube packages is a high risk activity in any factory. Robotics eliminates the need for people to be involved in the destrapping process and which makes it finally possible to automate your entire entry. Which eliminates the risk of serious injury and optimizes the production process. The Tebulo Destrapping machine is based upon a highly reliable and patented cutting and strap processing principle. Which is designed for removing PET straps up to high strength steel straps, at low product temperatures up to red hot product temperatures.

## Reliability you wish you had sooner

With over 65 destrapping machines delivered to renowned companies in the industry, with an operation performance of almost 100%, Tebulo robotic solutions will make the most challenging areas of your plant the most reliable. Downtime in any plant is expensive and today it's far too costly for businesses to cut into profits. You can rely on Tebulo to keep you moving forward.

## Flexible integration

Tebulo robotic solutions are engineered for fertility. We understand the varying needs of the industries we serve and our products are designed for the flexibility to integrate into, even the most demanding environments. We have the expertise to find the most efficient, economical and productive way to get robotics working for your business.

## Innovation that pays

Ensure your fully automatic de-strapping operations are best in class by implementing our Industry 4.0 solutions.

- ✓ Submit coil diameter for verification
- ✓ Submit plate thickness for verification
- ✓ Position Tail-End coil
- ✓ Complete strap removal despite position or quantity
- ✓ Submit coil width for verification
- ✓ Submit coil reel orientation
- ✓ Collapsed coil eye detection
- ✓ Live machine status check
- ✓ Submit coil ID for verification
- ✓ Temperature measurement
- ✓ Eye strap removal
- ✓ Other needs on request
